

Domain Name Registration & Web Site Hosting Order Form

Complete the details below for the domain name owner. Your "owner" information is the individual or organisation that will have access to manage and modify all the domain name information under this account. The owner will hold the right to use the registered domain name for a specified period of time provided certain conditions are met and the registration fees are paid.

M Denotes field is mandatory

P Denotes that the field may be seen during a Whois enquiry and therefore become publicly known

Eligibility Criteria

There are no eligibility requirements for the top level domains of .com .net .info .org .biz .us

If you wish to register a .com.au .net.au .org.au or .asn.au domain name, registrants must meet the eligibility requirements below; Please tick whichever applies.

- (a) Australian registered company
- (b) Trading under a registered business name in any Australian State or territory
- (c) Australian partnership or sole trader
- (d) A foreign company licensed to trade in Australia
- (e) An owner of an Australian Registered Trade Mark
- (f) Applicant for an Australian Registered Trade Mark
- (g) Association incorporated in any Australian State or Territory
- (h) Australian commercial statutory body

IMPORTANT NOTICE: You must quote your ACN, ARBN or ABN if a, b, c, d, g or h above applies

URL Forwarding (FREE)

URL Forwarding allows you to redirect traffic from your domain name to another URL (Web Site Address). This is a useful alternative for people with internet dialup accounts who don't wish to buy a fully fledged web hosting package. In simple terms, URL forwarding enables you to resolve your domain name to your free web hosting space provided to you by your ISP or other provider. Our Premium URL Forwarding is available Free of Charge. The premium service redirects visitors to the destination URL and retains the domain name (www.yourdomain.com), rather than the destination URL, in the address bar.

Would you like us to set up URL Forwarding for you? Yes No

Destination URL _____

e.g. http://www.members.bigpond/stevejones

E-mail Forwarding (FREE)

If you don't want to set up a hosting account for a website but would still like to receive email at your domain (e.g. info@yourdomain.com) then email forwarding may be the solution you're looking for. Email sent to addresses at your domain would then automatically be redirected to an email account such as johnsmith@aol.com. Email forwarding is a great way to present a consistent corporate ID to your customers and is available absolutely free. Email Forwarding is not an email box with an allocation of disc space and a username and password like a POP3 Account. If you intend to buy Web Hosting for your domain name you do NOT need email forwarding, email functions are included free in the Web Hosting Account. If you require fully-fledged email boxes (POP3 Accounts) with your domain name then you can arrange these with us.

Would you like us to set up E-mail Forwarding for you? Yes No

Specify an e-mail alias _____

eg sales@yourdomain.com

Your e-mail address _____

The email address to which mail will be forwarded to

Web Site Hosting Plans
